RAHUL SHARMA

rahul.sharma@example.com | +91-9876543210 | Bengaluru, India

PROFESSIONAL SUMMARY

Motivated software engineer with strong problem solving and analytical thinking abilities. Experienced in software development, backend development, and web application development. Adept at working in agile environments with a focus on clean code, performance optimization, and collaboration.

CORE SKILLS

Software Development, Object Oriented Programming, Data Structures and Algorithms, Backend Development, API Development, RESTful API Design, Database Design, SQL Querying, Version Control (Git), Debugging, Performance Optimization, Unit & Integration Testing, Agile Methodology, Collaboration

TECHNICAL EXPERIENCE

Software Engineer Intern

ABC Tech Solutions — Bengaluru | Jan 2024 – Jun 2024

- Developed backend services for web applications using RESTful API design principles.
- Worked on database design and SQL querying to improve data retrieval performance.
- Participated in code reviews and followed version control best practices using Git workflow.
- Implemented unit testing and integration testing to improve application reliability.
- Collaborated with cross-functional teams using agile methodology and scrum practices.

PROJECTS

Job Recommendation System

- Designed a backend system for job recommendation using skill-based matching.
- Applied problem solving and analytical thinking to map resume skills to job requirements.
- Improved performance through query optimization and efficient data modeling.

EDUCATION

Bachelor of Technology — Computer Science Engineering

XYZ College of Engineering | 2021 – 2025

ADDITIONAL SKILLS

Technical Documentation | Requirements Analysis | Time Management | Communication Skills
